

Attention All QuickBooks Users: No Need to Leave QB Just Because You Have Inventory to Manage: Announcing Fishbowl Inventory 2010 w/ New Manufacturing Option

I love learning new things everyday. Just yesterday I was introduced to Fishbowl Inventory of Orem, Utah. If someone asked me a few weeks ago what Fishbowl was, I would have been dumbfounded. Yet Fishbowl has been around developing and perfecting its product for many years.

So many of our clients are under the misconception that once their company has begun to mature, it has outgrown QuickBooks. Not so. With many innovative add-on products and software now available in the market, QuickBooks is here to stay more than ever.

What I learned is that Fishbowl is the #1 requested add-on for QuickBooks (5 consecutive years) and that it's the #1 selling inventory and manufacturing solution for QuickBooks.

What does Fishbowl do that QuickBooks cannot?

- Part tracking (serial numbers, lot numbers, expiration dates, revision numbers)
- Drop shipping
- Bar coding (part labeling and wireless bar coding)
- LIFO and FIFO accounting methods
- Kitting

What does Fishbowl do better than QuickBooks?

- Multi- versus single-location inventory tracking
- BOMs, work orders, sub-assemblies versus simple assembly
- Units of measure
- More variable pricing and discounting
- Order picking (advanced warehouse picking capabilities)

How do you learn more about Fishbowl and how it might be a good fit for your company?

- Contact Fishbowl directly and speak to one of their Inventory Software Specialists (call 1.800.744.7085 ext. 2)
- Sign up for a demo by going to its website at www.fishbowlinventory.com
- Work with a Fishbowl VAR (value-added reseller) such as my firm (call 1.617.371.2971)

Fishbowl is releasing its Fishbowl Inventory 2010 with a New Manufacturing Option at the end of this month and is offering a deep discount (15% discount) if it is purchased before the October 29 release date.

Please call us today at 617.371.2971 to learn more about Fishbowl and how it can help you manage your inventory.
