## **MEDIA ALERT**

### **Grade School Catalogs Library to Ensure Multi-level Education**

*Fishbowl to Close Doors: Donate Software, Hardware and Time to Inventory Resources*

#### **Who:**

--Fishbowl  
--United Way of Utah

#### **What:**

Cherry Creek Elementary School in Springville must ensure its multi-level students have the required resources in their library so they can read and advance. The problem is they don't always know what the library has or doesn't have and they don't have the budget, technical resources or expertise to find out.

The school needed to find a way to catalog all of its library books and resources before the beginning of the new school year.

Fishbowl stepped in and will close its doors Friday so all employees can go to the school to catalog and inventory all of the schools library resources. Fishbowl is donating and installing its Fishbowl Inventory software to accomplish the job. The school will be able to keep the system ensuring they always know what they have. Fishbowl will also donate training to school officials.

Fishbowl employees will also organize the school's media center, repair shelves, and help setup a new network and new school computers.

Fishbowl will provide all software, hardware, training and manpower to complete the project.

#### **When:**

Friday, August 7, 2009 10:00 am to 4:00 pm

#### **Where:**

Cherry Creek Elementary School  
484 South 200 East  
Springville, Utah
