

What is Fishbowl Inventory?

The #1 Inventory Control and Manufacturing software designed specifically for small to medium-sized businesses using QuickBooks®.

Ideal Fishbowl Customer

- 10-200 employee company
- Annual sales: \$2 Million to \$100 Million+
- Multiple warehouses, inventory locations or production facilities.
- Current QuickBooks Pro, Premier or Enterprise users

who need advanced inventory management/ manufacturing OR companies returning to the QuickBooks platform.

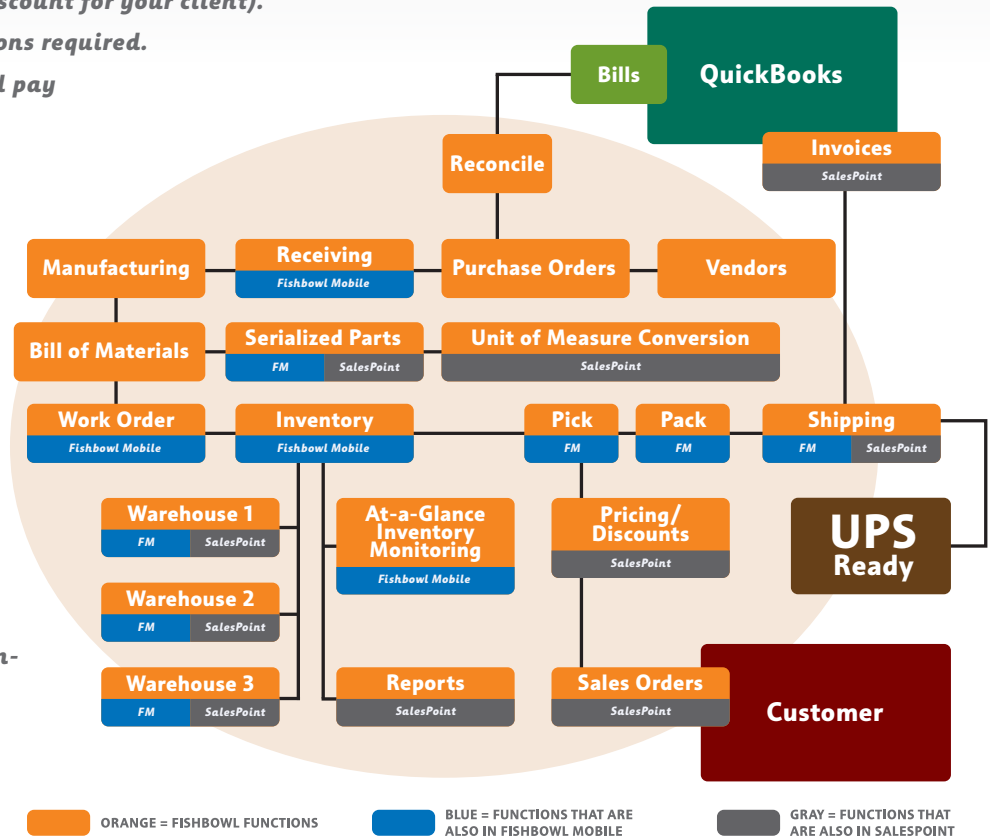

- 2-40 simultaneous users in Fishbowl.

Fishbowl Referrer Program

- Refer a client to Fishbowl and earn **AN AVERAGE \$1300 PER SALE** (or apply the commission towards a discount for your client).
- No training, no cost and no certifications required.
- We do the demo. We make the sale and pay you the commission.
- Call 1-800-774-7085 to register a lead.

How Does Fishbowl Work With QuickBooks?

- During the initial integration, Fishbowl downloads from QuickBooks all the customer, vendor, inventory and company information directly into the Fishbowl database.
- Fishbowl then manages all sales, purchasing, manufacturing, and inventory functions (QuickBooks inventory tracking is turned off).
- As work is done within Fishbowl that affects accounting, Fishbowl automatically pushes the invoices, bills and general ledger adjustments to QuickBooks. QuickBooks basically becomes the accounting module of Fishbowl.

Feature Comparison By itself, QuickBooks is a great accounting solution for small and midsize businesses, but it doesn't offer everything a growing business needs. When you add Fishbowl Inventory, you get advanced inventory management features that integrate seamlessly with QuickBooks. Take a look at this chart to see the comparison with and without Fishbowl:
