FISHBOWL PLUGINS MAKE OUR MANUFACTURING AND WAREHOUSE SOLUTIONS EVEN MORE POWERFUL!
Fishbowl has built a powerful business automation platform that integrates seamlessly with dozens of business solutions from shopping carts, e-commerce platforms, shippers, cloud inventory access, merchant services, CAD software and many others. On the following pages you will learn more about the available Fishbowl-integrated plugins.

“I’m extremely excited about Fishbowl’s current direction and the customer-focused additions we’re continuing to roll out. The decision to greatly increase the functionality of the Fishbowl platform with the introduction and use of plugins will allow our customers to concentrate the majority of their business processes in the Fishbowl suite of solutions.”

John David King
COO, Fishbowl
**Magento**
Magento’s shopping cart uses product listings from Fishbowl. After orders are downloaded into Fishbowl for fulfillment, their tracking and shipping information is automatically generated.

**Shopify**
Product listings, pictures, quantities, and descriptions are synced from Fishbowl to Shopify’s ecommerce solution. Fishbowl auto generates shipping and tracking information for new orders.

**Bigcommerce**
Fishbowl’s product listings can be integrated with this shopping cart. For orders, Fishbowl also generates and sends out shipping and tracking information.

**WooCommerce**
You can sync your Fishbowl product listings to WooCommerce’s shopping cart solution. WooCommerce transfers orders to Fishbowl, which prepares shipping and tracking information.

**LemonStand**
Synchronize Fishbowl’s product listings, pictures, quantities, and descriptions with LemonStand’s shopping cart. Fishbowl creates shipping and tracking information when an order comes in.
**Fishbowl Commerce**

Fishbowl Commerce connects seamlessly with Fishbowl Manufacturing and Fishbowl Warehouse to give you advanced inventory features.

We will do all of the work to keep your inventory in sync across all of your connected channels and then automatically import orders into Fishbowl to be picked, packed, and shipped.

---

**Amazon**

Fishbowl’s Amazon plugin integrates with both Amazon Merchant and Amazon FBA (Fulfilled By Amazon). Fishbowl sends detailed product information and descriptions to Amazon, and it generates shipping and tracking information for new orders.

---

**eBay**

Synchronize Fishbowl’s product listings, pictures, quantities, and more with eBay’s online marketplace. You can also instantly generate tracking information when you ship orders to customers.

---

**3dcart**

3dcart is an ecommerce solution that integrates with Fishbowl to obtain inventory data, product images, and other information for its shopping cart.

---

**ZenCart**

Zen Cart’s ecommerce solution utilizes Fishbowl’s product listings, pictures, quantities, and descriptions. Orders are sent to Fishbowl, which generates shipping and tracking information.
**MANUFACTURING**

**SolidWorks**
Fishbowl Manufacturing integrates with SolidWorks to bring the theoretical into the real world. Identify the components of 3D digital models and translate them into bills of materials to build just about anything you can imagine.

---

**SHIPPING**

**ShipStation**
ShipStation is an ecommerce, shipping, and fulfillment solution that lets users handle multiple carriers, upload orders, ship packages, and get tracking information into Fishbowl.

---

**ACCESSIBILITY**

**Fishbowl Anywhere**
Fishbowl Anywhere is a new plugin that lets you use Fishbowl Manufacturing or Fishbowl Warehouse wherever you like. As long as the Fishbowl Server is installed on a PC, Mac, or Linux device, you can login to it from any device with Internet access.

---

**LAVOR AND REPORTING**

**Forecast**
Fishbowl’s Forecasting plugin will assist you in forecasting inventory levels. Why not give yourself an edge over competitors by taking advantage of all the inventory forecasting features available to you? Use hard data to build your company and stay above the mediocrity of other companies. Be proactive and be prepared by using Fishbowl Manufacturing or Fishbowl Warehouse!
Fishbowl Time & Labor
Fishbowl Time & Labor is an online timekeeping solution that tracks employee hours, overtime, payroll, tax status, and more. By integrating Fishbowl Time & Labor with the core Fishbowl software, businesses have access to accurate records of total labor costs for work orders and projects.

Sales Data
Fishbowl has a Sales Data Plugin that lets you drill down on your company’s sales by where they are made, such as Country, State or province, or City.

Not only that, but you can also customize the date range and the products you want to see. All of this adds up to a tool that lets you analyze your sales by product, by location, and by timeframe.

“Fishbowl’s customers have spoken, and I believe we’re responding in the best way possible. Fishbowl’s plugins are a fantastic solution to a wide variety of needs for our customers and will allow them to quickly and easily add amazing functionality to an already feature rich solution.”

John David King
COO, Fishbowl

QuickBooks Online Browser
Fishbowl integrates seamlessly with QuickBooks Online, allowing Fishbowl users to quickly update accounting records and make changes to the general ledger.
**Accounting**

**Xero Browser**
Xero is a cloud-based accounting solution for SMBs. Fishbowl integrates with Xero, giving you an inventory and order management system with integrated accounting features.

**Other Plugins**

**Fishbowl Go**
Fishbowl Go lets you view and adjust inventory levels from anywhere in your warehouse. Whether you are shipping, receiving or simply moving inventory from one location to another, Fishbowl will help you increase your inventory accuracy and worker productivity with ease!

**Dropbox**
Dropbox is a cloud-based tool for storing images, documents, and other files. You can then associate those files with items and orders in Fishbowl.

**UPS Integration**
UPS shipping features are built into Fishbowl's interface. Instantly send shipment notices to UPS for pickup, compare shipping prices, print labels, and more from Fishbowl.

**USPS Address Verification**
Fishbowl has the ability to validate addresses by checking the US Postal Service (USPS) database to make sure the address exists and is formatted correctly.
