

The Ultimate Server Solution That's Easy on Cash Flow—Don't waste time and money trying to keep up with advancing server and security technology. Focus on growing your business, and let Fishbowl host your server and take care of associated IT issues. We are so confident in our hosted solution, we require no long-term contracts. Check out the features and benefits of Fishbowl Hosted Services:

1. Fishbowl Core Products Pre-Installed and Ready to

Run: With Fishbowl Hosted Services, you don't have to be an IT expert. We install the latest version of Fishbowl Manufacturing (FBM) or Fishbowl Warehouse (FBW) on your server for you. All you do is log in and start using your software. It's that easy.

2. Fishbowl Upgrades Ready When You Are:

When you are ready to upgrade to future versions of FBM or FBW, let your Account Manager know and we'll take care of it for you. You'll discover the biggest benefit of hosted services is the time and money you save on IT issues.

3. Readily Available Backups:

Your system will be backed up daily. Once a week those backups are transferred to a granite vault for safekeeping. Never worry about your data again. If you ever need to restore to one of those backups, just let us know.

4. Enterprise-Level Security:

We use cutting-edge security to ensure our servers are always up and protected, including advanced biometric scanners to grant access only to authorized personnel. We also staff our facilities 24/7/365, giving you the assurance that someone is always taking care of your system.

5. Save Time and Money:

Staying current on the best server and security technologies is a time-consuming and costly endeavor. Leave the IT work to the pros at Fishbowl Hosted Services. Trying to do your own IT is more expensive than it is worth, especially if you make a wrong decision. Fishbowl

lets you benefit from the best technologies on the market by staying current on them so you don't have to.

6. Simplify Your IT Requirements:

Even if you can afford a skilled IT staff, you should leave IT issues to the experts at Fishbowl Hosted Services. Our hosted server solution means you have substantially fewer IT concerns, freeing up time and energy you can put towards growing your business.

7. Easy Access:

Securely gain remote access to your server from any location. You just need a computer with Internet access. Your office can now go wherever you go.

8. Microsoft Excel Pre-Installed:

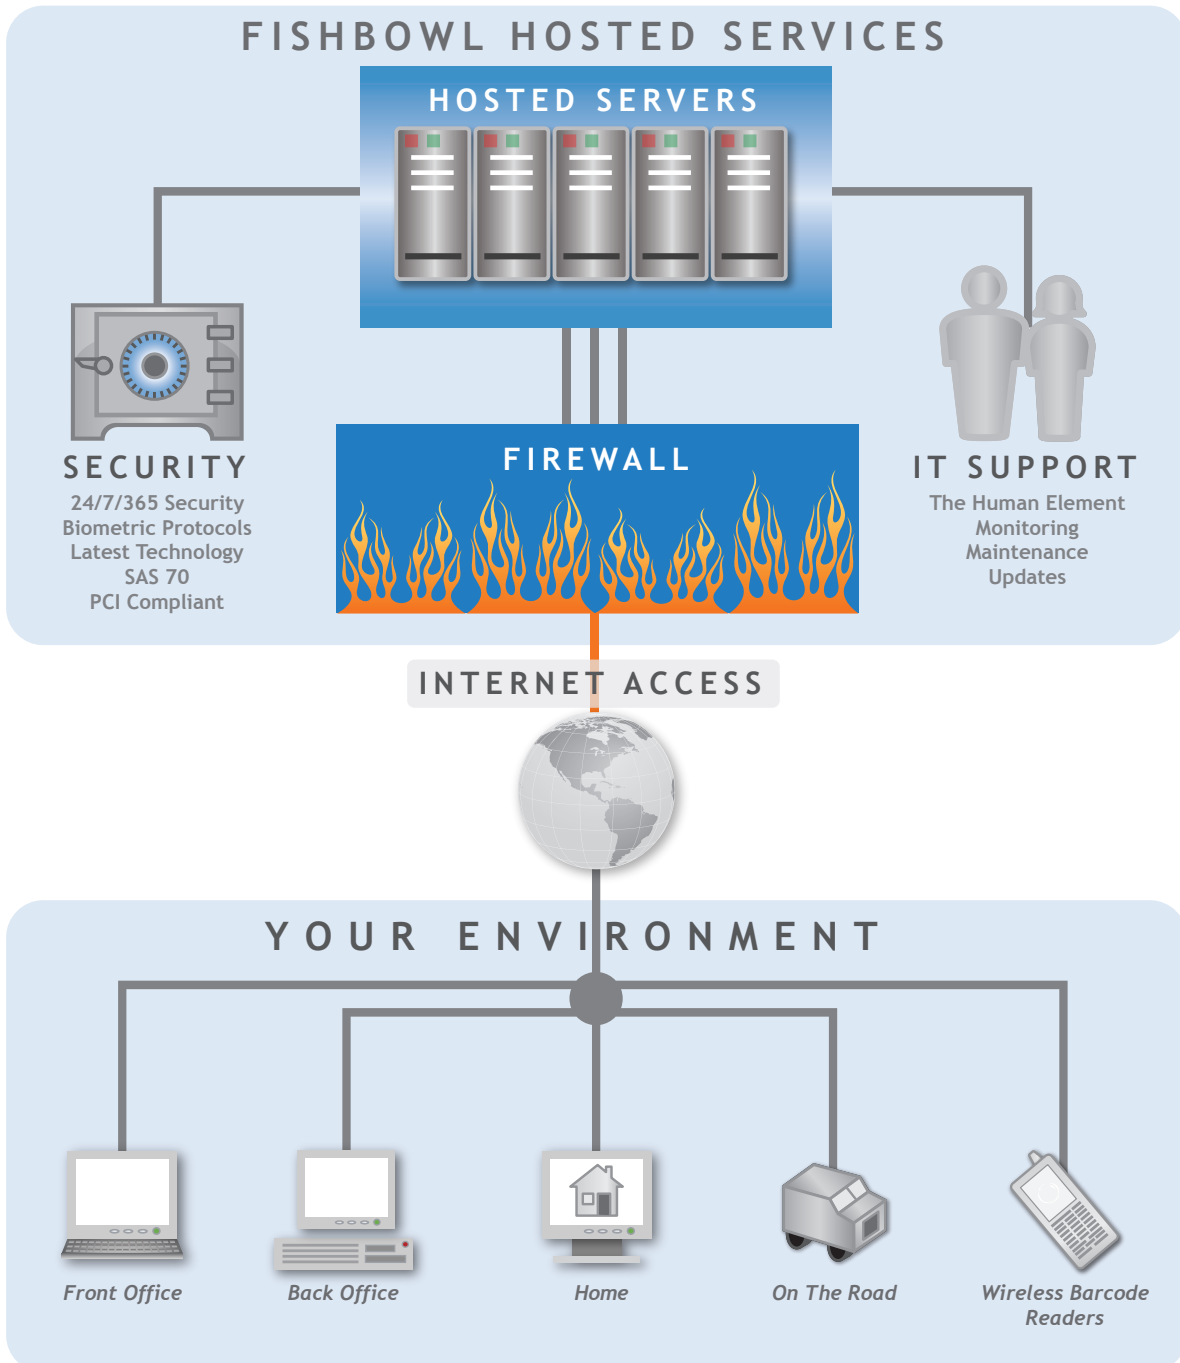

You'll have Microsoft Excel already installed on your server. Users can access this application from any location they have Internet access, increasing productivity and collaboration.

9. Annual Audits:

Third-party auditors visit our facilities annually to ensure our processes reflect the industry's best practices. We are PCI compliant and SAS 70 audited every year, demonstrating our dedication to having adequate controls and safeguards in place.

Further automate Fishbowl's business automation platform at a price point that is easy on cash flow and based on a simple month-to-month contract. Why waste your valuable time or leave yourself open to security risks when Fishbowl Hosted Services is here to help? Call Fishbowl today at 1-800-774-7085 Ext. 2 to get started.

Security, accessibility, and simplicity—As you can see from the diagram below, Fishbowl Hosted Services gives you multiple layers of redundancy and state-of-the-art security, which provides secure access and peace of mind. With the added benefit of having FBM or FBW installed on your virtual server, using Fishbowl core products is just a login away. What could be more convenient for you and your business! **Call today for your custom quote.**
